Date 4/13 Part No. H-04CW-XXXX Type 4CW General Purpose 400°F Hose TAB 1-D The Fume-A-Vent Type 4CW Black Neoprene Fabric Hose with Non-marking Thermoplastic Helix Cover is ideal for general purpose use and is a very economical with high efficiency air flow. It is ideal for use with cold or hot air transportation, engine or whice construction, exhaust and extraction applications as well. The hose has exceeded 300°F during certified testing and is rated to 400°F for intermittent use. Temperature Range: - 30°F to -300°F (Baking Test) This produce meets UL 94, V-0 requirements for flame resistance. The intermittent temperature rating is up to 400°F use, when a Fan is property utilized. This induce the subscience of the produce of the available upon request. Other information including static pressure limits and helix pitch are available upon request. In most cases, a Fan and a Tailpipe Adaptor will be required. Common lengths shown below include 15° to 30° with 4° to 8° Diameters. Other size options up to 20° are always available upon request. H-04C-0415 4° x 15° Type 4CW 400° Neoprene Coated Poyester Hose with Black Rubber Clip Cover 12.15 H-04C-0420 4° x 20° Type 4CW 400° Neoprene Coated Poyester Hose with Black Rubber Clip Cover 12.15 H-04C-0425 4° x 20° Type 4CW 400° Neoprene Coated Poyester Hose with Black Rubber Clip Cover 12.15 H-04C-0425 4° x 20° Type 4CW 400° Neoprene Coated Poyester Hose with Black Rubber Clip Cover 12.15 H-04C-04	I	Fume-A-Vent Typ	e 4CW Neoprene Coated Polyester 400°l	⁼ Hose
general purpose use and is a very economical with high efficiency air flow. It is ideal for use with cold or hot air transportation, engine or vehicle construction, exhaust and extraction applications as well. The hose has exceeded 300°F during certified testing and is rated to 400°F for intermittent use. Temperature Ranger - 30°F for +300°F (Baking Test) This product meels UL 94, V-O requirements for flame resistance. The intermittent temperature rating is up to 400°F use, when a Fan is properly utilized. The intermittent temperature rating is up to 400°F use, when a Fan is properly utilized. The intermittent temperature rating is up to 400°F use, when a Fan is properly utilized. This product meels UL 94, V-O requirements for flame resistant ideal for a variety of applications. Other information including static pressure limits and helix pitch are available upon request. In most cases, a Fan and a Talipipe Adaptive will be required. Common lengths show below include 15° to 30° with 4° to 8° Diameters. Other size options up to 20° are always available upon request.	Date 4/13	Part No. H-04CW-XX	X Type 4CW General Purpose 400°F Hose	TAB 1-D-3
has a high compressibility ratio. It is vibration proof and flame resistant ideal for a variety of applications. Other information including static pressure limits and helix pitch are available upon request. In most cases, a Fan and a Tailpipe Adaptor will be required. Common lengths shown below include 15' to 30' with 4" to 8" Diameters. Other size options up to 20' are always available upon request.
