

# Fume A-Vent Spring Balancer Overhead Exhaust System

Date 7/12

Part No.SDB-XXX

Balancer Simple Drops

TAB 2-F

**Fume-A-Vent** Overhead Systems are the user-friendly and cost-effective solution that meets a wide variety of demands. The Spring Balancer systems can incorporate many hose types and lifting configurations, all made in the U.S.A. Exhaust Hoses range from high-temperature silicone to medium-temperatures polyester. Our Spring Balancer Systems are a higher end system, known for usability, and high durability. We also offer ductwork, blower fans, and tailpipe adaptor to complete the system.

- 1) Fabric Hose Connects Directly to Ductwork.
- 2) Balancer is Mounted to Ceiling Above
- 3) Fabric Hose Is Positioned Aside From Work Area
- 4) Tailpipe Adaptors Connect Directly to Fabric Hose

All Dimensions in INCHES (mm)

# Fume-A-Vent Type 5C 500°F Single-Ply Silicone Coated Fireberglass Hose

Date 4/13

Part No. H-05C-XXXX

Type 5C 500°F Hose

TAB 1-E-2

Fume-A-Vent Type 5C Hose is specially designed with Exhaust Removal in mind. It can be used on hose reels, Simple Drop Systems, and medium to light duty car exhaust removal. Its coated materials have some of the best outside wear resistance.

Temperature Range: -50°F to +550°F

This product passed UL-94,V-O standards for flame resistance.

This product has an overall oven baking temperature of 550°F. When used with a Exhaust Fan, higher temperatures can be seen.

This hose is made with a Flame Resistant Single-Ply Silicone Coated Fiberglass Hose. The exterior helix deign makes great flow characteristics. The hose is made of a gray fabric with a galvanized steel helix. It has a high compressability rate and flexibility.

Other information including wall thickness and helix pitch are available upon request. Common lengths shown below include 15' to 35' with 3" to 8" Diameters. Other size options are always available upon request.

Part No	Description	Wt. Lbs.
