

ENGINEERING & TECHNICAL DATA -

Type 4C – 400 Degrees Fabric Flex Hose

Part #: H-04C-XXXX

Temperature Range: -65°F to 300°F (Baking Test) Intermittent to 400°F when properly used with Fan

Construction: Single-Ply Neoprene Coated Polyester Fabric Hose with External Steel Helix

DIA. (Inches)	Working Pressure (PSI)	Negative Pressure (W.C.)	Bending Radius (Inches)	Weight (Lbs/Ft)	Compression Ratio
4.00	11	6	3.00	0.64	6:1
5.00	6	4	3.50	0.61	8:1
6.00	5	3.8	4.00	0.72	8:1
8.00	3.9	3.3	5.50	1.00	8:1
10.00	2.8	3.2	7.00	1.39	8:1

Standard Production Styles:

- Diameter: 3" to 12"
- Color: Black w/ Steel External Helix
- Standard Lengths: 25'

Available Upon Request:

- Special Lengths
- Custom Design
- Stainless Steel External Helix
- Metric Sizes
- Other Colors
