Control Panels

TAB 19-A

Fume-A-Vent offers State-of-the-Art Control Panels, that are able to manage the power to our exhaust extraction systems with limited installation required. All Panels are UL/CLU Certified. They feature a mild-steel NEMA 4 enclosure with 3-way (HAND-OFF-AUTO) switch and reset button, and low voltage landing terminals. Motor starts, contractor and thermal overload standard in all Panels.

These panels are ideal for automotive shops exhaust systems, and is used to control the blowers or fans. Disconnect Switches may be required in some buildings and to meet local/national codes.

Control Panels are based on the Building Power, and Fan/Blower that is to be run. We offer 1 and 3 Phase, 120V, or 230V, with 1, 2, 3, 5, or 7.5, H.P. blower ratings. ****120V not available in 3 Phase.**

We recommend a licensed electrician install our panels.

Enclosure Dimensions: 10" H x 10"W x 6"D (Up to 5.0 H.P.)
12" H x 10" W x 8"D (7.5 H.P.)

Other Control Panel options available including multiple motor starts, multiple timers, among other custom controls. Please consult our experts if you require anything not accommodated for in our standard panels.
