

Fume A-Vent Spring Balancer Overhead Exhaust System

Date 6/24

Part No.SDB-XXX

Balancer Simple Drops

TAB 2-F

Fume-A-Vent Overhead Systems are the user-friendly and cost-effective solution that meets a wide variety of demands. The Spring Balancer systems can incorporate many hose types and lifting configurations, all made in the U.S.A. Exhaust Hoses range from high-temperature silicone to medium-temperatures polyester. Our Spring Balancer Systems are a higher end system, known for usability, and high durability. We also offer ductwork, blower fans, and tailpipe adaptor to complete the system.

- 1) Fabric Hose Connects Directly to Ductwork.
- 2) Balancer is Mounted to Ceiling Above
- 3) Fabric Hose Is Positioned Aside From Work Area
- 4) Tailpipe Adaptors Connect Directly to Fabric Hose
