

ENGINEERING & TECHNICAL DATA -

Type 2 MIL – 600 Degrees Fabric Flex Hose

Part #: H-02MIL-XXXX

Temperature Range: -75°F to 660°F (Baking Test). Tested to meet military specification MIL PFR 62028 - Paragraph 4.7.8 72 Hours at 1000 Degrees Fahrenheit.

Construction: Outer Layer: Silicone-Coated Nomex, Inner Layer: Silicone-Coated Glass Fabric

DIA. (Inches)	Positive Pressure (W.C)	Negative Pressure (W.C.)	Bending Radius (Inches)	Weight (Lbs/Ft)
4.00	764	140	2.08	0.70
5.00	563	104	2.52	0.90
6.00	482	68	3.00	1.20
8.00	281	36	4.00	1.40
10.00	201	28	6.00	2.00

Standard Production Styles:

- Diameter: 1" to 12"
- Color: Orange w/ Steel Imbedded Helix
- Standard Lengths: 20', 13'

Available Upon Request:

- Special Lengths
- Custom Design
- Stainless Steel External Helix
- Metric Sizes
- Other Colors
